RE: Site Inspection, Interstate Brick Co., Snow White Mine, S/049/030, Utah County, Utah

Date of Inspection: September 22, 1999  
Time of Inspection: 11:00 a.m.  
Conditions: Partly Cloudy  
Participants: Jerry North and Tony Peck, Interstate Brick; Lynn Kunzler, DOGM

Purpose of Inspection: To evaluate reclamation efforts.

The June 29, 1999 inspection identified 6.5 acres of current disturbance associated with this operation. Interstate Brick Co. was notified of the violation and was given the option to either permit the site as a large mining operation or reclaim a portion of the disturbance to reduce the acreage to less than five acres. On September 17, 1999, Jerry North called and requested an inspection to determine whether sufficient area was being reclaimed.

This inspection identified that about 3 acres have been regraded and is ready for seeding. Mr. North indicated that he would seed the area in mid October to take advantage of the fall planting window. This is acceptable to the Division. This action will also bring the site into compliance with the regulations.

Several photos were taken of the site.
